## Community Bankers Association Endorses this Rker

**John E. Pinto, Pentegra's** president and CEO, confirmed today that the **Community Bankers Association of Georgia** is endorsing the retirement programs and services of Pentegra through its advisor partnerships. The recordkeeper's retirement products were picked based on these few reasons: Pentegra's ability to meet the needs of its members, with a full array of retirement product offerings, industry expertise, and bank-focused solutions.

After looking through various recordkeepers, **Wade Connor**, regional director at Pentegra, tells **401kWire** that Community Bankers Association chose Pentegra as the premier provider in managing retirement plans through its advisor relationships.

"We are very excited about partnering with Pentegra," stated **Rob Braswell**, president and CEO of the Community Bankers Association of Georgia. "They have been a CBA Associate Member for many years and many of our member banks already enjoy the wide variety of options available to their employees. During our due diligence, we spoke with numerous Pentegra clients who found them to be very knowledgeable and provided excellent customer service for their employees."

Pentegra currently provides the endorsed retirement plan products and services to more than 700 financial institution clients sponsoring over 1,000 retirement plans nationwide.
